I confirm that I have walked on the England Coastal Path section SBA-1-S031, a long-distance national trail and public footpath outlined in the map attached on page 2.

Please describe your knowledge of the route in your own words.

1. When did you first use the route and what was the purpose of your journeys?
2. Why did you stop using the route and when?
3. How often did you use the route?
4. Did you see other people using the path?
5. Any other information you consider relevant?

MY USE OF THE ROUTE (Please continue on a separate page if required)

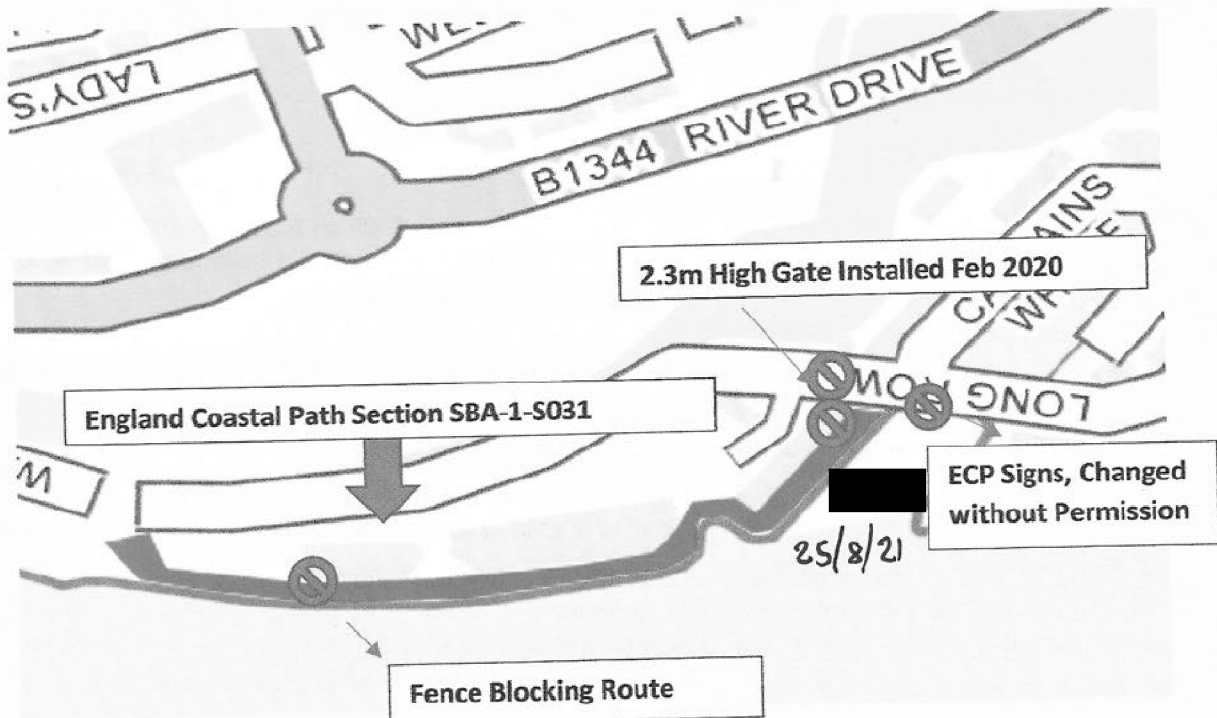

First used route when we moved here in 2012.
Used the route as part of my cycling/walking route as it's close to the river and affords great views across to North Shields and the ferry terminal. Enjoyed this route frequently, maybe twenty times a month, sometimes less depending on weather, time of year. It is natural for people to want to be by the sea or a river, so saw many people using this route. Who would want to walk through a housing estate when a river walk is available? After builders finished felt shocked and aggrieved that route had been closed with no warning or consultation!
